DECORATIVE PVC LAMINATE

BERN®

ABOUT BERN PVC LAMINATES

Rang gladly presents you an embellishing series of chic and modern PVC laminate designs. The opulent finish of the surface reflects minimum light giving an excellent statement. The high-quality laminate sheets are scratch resistant to a certain degree. The striking power of resisting fire and water is an ornamental quality of this product.

BACTERIAL

Rang Décor has been providing world class decorative products in this decade. Our range was started with PVC Laminate initially, later we introduced charcoal panels and Louvers, Acrylic laminates, MDF Louvers, Engraved Mirror Acrylic, Decorative Laminate and 8 X 1 feet Decorative Louvers. The love, appreciation and sale of these products gave us a reason to keep our innovative work going. Hence, we brought to the world our next collection LITIA- the fluted acrylics. These enchanting luxurious craft leads us towards becoming the most demanding beautiful decor. Our team of experts is dedicated to the quality and timely procurement with zero depletion and zero failure. Each day we personally look into the innovation part to bring out creativity and fresh designs with all new patterns. Our products not only highlight the ornamentation but also add a tincture of freshness in everything around! RANG is a world where beautifying your space is our priority!

TECHNICAL SPECIFICATION

Thickness
1.00mm to 1.50mm

Standard Sizes
1220mm X 2440mm

Range
Rang PVC Laminates come in a wide range of design, colours and finishes.

Adhesive
Rang PVC laminates are easy to apply with the standard laminating system, including most of the conventional water and solvent based adhesives normally used with plastic laminates. We DO NOT recommend the use of heat activated adhesives.

Lamination
Proper substrates must be used and careful bonding procedures must be observed. Substrates should be of good quality plywood, PVC Board, high density particle board or good quality fiber board. The face of the substrate must be smooth and free of grease, wax, dust, chips and other foreign matter. We DO NOT recommend any kind of coat like PU base, melamine, lamination (wax) on our products.

Cutting & Machining
These PVC laminates can be cut by using sharp diamond blade cutter only. We recommend the use of smooth file to feather all corner edges.

90° Bending
You can simply use V-Groove Cutter by giving a groove of 0.3 mm to 0.5 mm for bending the sheet up-to 90 degrees. For any difficulty please contact Rang.

Maintenance
Any cleaning agent containing acids, alkalis or abrasive should NOT be used to clean the laminate. Exposure to sunlight should be avoided.

Note
Rang warrants that all its products are free from manufacturing defects and perfectly fit for use in normal conditions. In case of any claim, the liability the company's is however limited to the cost of the product only. There may be batch to batch colour variation. The sample swatches only represent the designs, colours and finish. They do not represent the actual thickness.

KINDLY REMOVE THE PROTECTIVE FILM WITHIN 7 DAYS OF INSTALLATION OF LAMINATES.

Disclaimer : The laminates in the catalogue may differ in colour from the original laminates.
The laminate colours may vary with every new batch of production.
